ABOFLEX GOLD

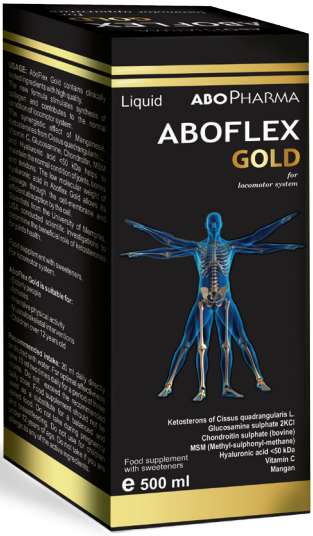

For locomotor system

Composition / daily intake = 30ml /:
Glucosamine Sulfate-1600 mg; Chondroitin bovine sulphate - 1100 mg; MCM (Methylsulfonyl methane) -1600 mg; Hyaluronic Acid - 95 mg; Manganese (Manganese Chloride) - 2.31 mg; Vitamin C (L-Ascorbic acid) -150 mg

Recommended Intake: 30 ml per day can be taken directly or diluted with water. For optimal effect, it is recommended to take the product 2 times 15 ml per day for 3 months. Do not exceed the over-guaranteed daily intake.

healthy joint *sick joint*

500 ml

ABOFLEX is a product designed to influence and relieve symptoms associated with musculoskeletal disorders. Efficient formula with well-combined ingredients, supplied in a liquid form for maximum absorption by the body.
It contains low molecular weight hyaluronic acid, making the product very effective and preferred for intake.

Hyaluronic acid is a major component of cartilage. Keeps moisture in the extracellular component of connective tissue and maintains the integrity of the structure of articular cartilage and other intrabody structures.

The unique formula of ABOFLEX also contains manganese, which has anti-inflammatory action and helps with joint pains and sprains. This effect is explained by the antioxidant function of the superoxide dismutase enzyme. People with arthritis have been found to have low levels of this enzyme. Ensuring a sufficient amount of manganese stimulates the synthesis and function of superoxide dismutase, improving the symptoms of arthritis. Manganese helps maintain good bone structure.

ABOFLEX GOLD contributes to helping:

- discomfort and joint pain;
- various inflammatory joint diseases;
- helps to increase the range of motion and joint function of coxarthrosis, gonarthrosis;
- sports and domestic injuries, sprains, sprains, and others.

*"**ABOFLEX GOLD** contains glucosamine and chondroitin sulphate, Manganese, MCM-methylsulfonyl methane and some other oligoelements."*
Liquid form is convenient for dosing and wearing anywhere, so there is no risk of inaction. This is the product that contains all the most essential ingredients for nourishing the hyaline cartilage of the joints. Adding to its excellent taste properties, it can reasonably be described as a very well-balanced product that is suitable for people suffering from degenerative joint disease. " - prof. Zlatimir Kolarov - Professor of Rheumatology. Chairman of the Bulgarian Medical Society for Osteoporosis and Osteoarthrosis.

ABOGERIT

Complex of Vitamin A + Vitamin E

Recommended intake:
For adults and children over 6 years 1 capsule daily

Composition 1 capsule: Vitamin A / Retinyl palmitate / - 1500 µg RE / 5000 IU / 188%; Vitamin E (D-alpha tocopherol) - 67mg a-TE / 100 IU / 560%; Soybean oil - 22.06 mg

25 capsules

VITAMIN A CONTRIBUTES TO:

- the normal function of the immune system
- the normal metabolism of iron
- maintaining the normal mucosal state
- maintaining normal skin and vision
- participates in the process of cell specialization

VITAMIN E CONTRIBUTES TO:

- protecting cells from oxidative stress
- stimulating hair growth and improving the condition of the skin
- delaying aging and pigmentation on the skin
- delaying the formation of free radicals in the body

ABOPHOLIC META - Folic Acid

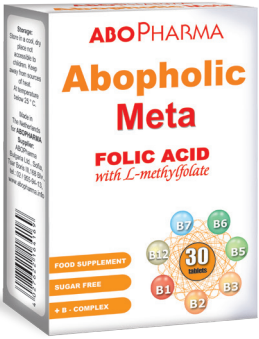

+ Vitamin B1, B2, B3, B5, B6, B7 and B12

New improved formula with L-methylfolote for better absorption.
Suitable for intake by people with anemia or dermatological problems!

400 µg

30 tablets

ABOPHOLIC META is absorbed faster and almost immediately reaches the required levels.
Conversion of folic acid to L-methylfolate is a complex and multilevel process. In 12% of the population can not be established due to genetic enzyme defect. Therefore, it is recommended to be taken by both women and men.
ABOPHOLIC META helps reduce the risk of developing Spina Bifida from the fetus.
Group B vitamins are extremely important for the construction of neurotransmitters, to protect the genes from damage, for cellular oxidative reduction processes.
The three main components of folic acid are PABA, glutamic acid and pteridine. Helps the cells to multiply. It is necessary for the formation of the placenta and for the construction of the embryonic bone marrow.
Important: Do not take ABOPHOLIC META if: You have ever had an allergic reaction to Lmethylfolate or any of the other ingredients of the tablet. The most common symptoms of an allergic reaction are rash, itching, swelling of the lips, shortness of breath.

Recommended dosage:

Any woman of childbearing age are needed 0.2 mg (200 micrograms) - a half tablet daily intake of folic acid.
For pregnant women the dose is double: 0.4 mg (400 micrograms) - 1 tablet per day. Administration of folic acid reduce the risk of injury to the baby to 70%.
Recommended 1 tablet per day for people with type 2 diabetes, because taking metformin, which leads to reduced levels of vitamin 812 and folic acid.
For dermatological problems 1 tablet a day after consultation with a dermatologist. At the discretion of the specialist, the intake may be increased.
To enhance the levels of spermatogenesis in men recommended daily intake of 0.2 mg
half tablet of folic acid.

Ingredients of 1 tablet: Methylated folic acid /Calcium L methyl folate/; Vitamin B1 /thiamine/ - 1,4 mg Vitamin B2 /riboflavin/ - 1,6 mg; Niacin /nicotinamide/ - 18 mg NE; Pantothenic acid /Calcium D-pantothenate/ - 6 mg Vitamin B6 /pyridoxine/- 2 mg; Biotin /D-biotin/ - 150 µg; Vitamin B12 /cyanocobalamin/ - 1 µg

ABORUHE - Sleep & Relax

Powerful natural combination for sleep & relax

24 capsules

ABO-RUHE is a natural sleeping combination containing (100 mg), extract of hop cones (30 mg) and L-theanine (100 mg), Magnesium (SO mg), Vitamin 86 (1 mg), optimal extract ratio of valerianae root (100 mg). It helps to increase the activity of alpha waves, which are the "brain waves of sleep and relaxation", helps to limit night wakes and contributes to the feeling of freshness and rest after sleep.

L-theanine

gamma-ethylamino-Lglutamic acid extracted from green tea (Camellia japonica, Camellia sinensis)

promotes the formation of alpha waves in the brain, preinitiating states of long-term relaxation without causing sleepiness

promotes the production of inhibitors by gammaaminosuccinic acid neurotransmitters (GABA), increasing its levels in the body

contributes to reducing mental and physical stress

helps reduce sleep time

has a beneficial effect on the symptoms of pre-syndrome syndrome

contributes to maintaining a normal blood cholesterol concentration

Extract from Valerianae's roots

the active ingredientvalerianic acid has the socalled "balancing effect"

in the excited state of the nervous system - aids the enhancement of retarded processes in the cerebrum

in fatigue - helps to normalize the nervous system

Extract of Hops Cones

has antiseptic action

contributes to reducing the feeling of tiredness and fatigue

has an estrogenic effect

contributes to the normal functioning of the nervous system

Recommended Intake:

To help keep the central nervous system in a calm state:
2 capsules 1-3 times a day with plenty of liquid without chewing
To help reduce sleep time in the evening:
2 capsules about 1 hour before bed with plenty of liquid without chewing.

Do not consume more than 6 capsules a day!
It does not cause dependence!
It can be used by drivers, people working with machines and hyperactive children over 12 years of age with a recommended daily intake of 1 capsule 1-2 times a day without chewing

ABOVISION - EYE & VISION

Special formula for excellent vision

Special formula with lutein, zeaxanthin, blackberry, zinc, vitamin E and vitamin C

To maintain normal vision, our body needs Lutein and Zeaxanthin. Blackberries occupies the first place among foods for a favorable effect on the eyes. They are the two natural carotenoids contained in the retina and necessary for the optic optic function and the strengthening of the capillaries.

15 capsules

They help to absorb the light from the blue area of the visible spectrum - the rays with the most harmful wavelengths that the retina is usually exposed to. The activity of vitamin A in it helps to neutralize the action of free radicals. Vitamin A deficiency leads to night blindness as he participates in ototransduction. To maintain normal vision, our body needs Lutein and Zeaxanthin. Blackberries occupies the first place among foods for a favorable effect on the eyes. They are the two natural carotenoids contained in the retina and necessary for the optic function and the strengthening of the capillaries. Studies show that higher dietary intake of lutein and zeaxanthin helps reduce the risk of cataracts and age-related macular degeneration. The anthocyans it contains contribute to the acceleration of the regeneration of the pigment ropopsin in retinal photoreceptor cells. This helps to adjust the eyes to light and darkness. Blackberry helps to avoid macular degeneration of the retina and helps improve visual acuity. They are absorbed about 5 times better than beta-carotene.
Vitamin E contributes to the protection of cells from oxidative stress. Protects other fat-soluble vitamins from oxidation, helping to absorb vitamin A and vitamin C.
Lutein builds up on the entire retina, while zeaxanthin - mostly in the macula.

INGREDIENTS IN 1 CAPSULE	*RDI
Lutein (Extr.Tagetes erecta L.20% of 170 mg)	34 mg
Zeaxanthin (Extr.Tagetes erecta 4% of 170 mg)	6.8 mg
Blackberry extract (25%)	50 mg
- (Extr.Vaccinium myrtillus, 25% anthocianidines)	
Vitamin C (L-ascorbic acid)	30 mg (38% RDI)
Vitamin E (D-alpha tocopherol)	36 mg (300 % RDI)
Zinc (Zinc oxide)	15 mg (150% RDI)

* RDI = Recomended daily intake

emulsifier: soy lecithin; fillers: soybean oil, hydrogenated soybean oil; coloring agent: iron oxide; gelatin, glycerol.

Eye damage factors:

- computer work
- watching TV
- driving at night
- dry and dirty air
- cigarette smoke
- use of alcohol

ABOVITAMAM

24 vitamins, minerals and microelements

Suitable for intake and during breast feeding!

Recommended dosage:
1 tablet per day without chewing with more water. The product is not a substitute for varied meals!

400 µg folic acid **30 tablets**

ABOVITAMAM e is a specially designed formula for pregnant women of 24 vitamins, minerals and trace elements. They contribute to the proper development of the fetus throughout the pregnancy and post-natal period.

ABOVITAMAM is also recommended in the case of a planned pregnancy

- Carefully selected ingredients help maintain a normal state of the immune system of the future mother and help to properly build and function the cells and tissues of the fetus
- Help reduce the feeling of tiredness and fatigue and to protect cells from oxidative stress
- It is known that in the 9 months, iron demand has increased considerably, desirable to avoid up to 12 weeks of gestation because they can cause nausea and vomiting. However, the micro element should be taken in the second half of the pregnancy. It is difficult to digest, so the amount should not be more than 30 mg per day. If the pregnancy is two-fetal or the woman is large, the dose should be doubled.

Ingredients in 1 tablet: Vitamin B1 (Thiamin mononitrate) - 3 mg (273%), Vitamin B2 (Riboflavin) - 2 mg (143%), Vitamin B3 (Nicotinamide) Calcium D-pantothenate - 6 mg (100%), Vitamin B6 (Pyridoxine Hydro-chloride) - 10 mg (715%), Vitamin B7 (D-Biotin)) - 400 µg (200%), Vitamin B12 (Cyanocobalamin) - 6 µg (240%), Vitamin C (L-ascorbic acid) Vitamin P (Bioflavonoids) - 25 mg, Potassium (Potassium iodide) - 0.04 mg (67%), Vitamin E (DL-alpha-tocopherol) (0%), Calcium (Calcium Car (Magnesium Oxide) - 150 mg (40%), Manganese (Magnesium Oxide) - 150 mg (40%), Iron (Iron Fumarate) (Manganese Gluconate) - 1mg (50%), Zinc (Zinc Citrate) -15 mg (150%), Selenium (Sodium Selenium) - 25g (45% (Ammonium heptamolybdate) - 50 µg (100%), Chromium (chromium picolinate) -
25 µg (63%).

ALOE - VERA, /Barbadensis Miller/

Drinking gel with 91% Aloe Vera juice and 9% honey

1000 ml

Drinking gel with 91% Aloe Vera juice and 9% honey

ingredients	100 ml	60 ml	*ПДП
Aloe Vera	91 ml	54.6 ml	
Vitamin C	133 mg	80 mg	133 %
honey	9 ml	5.4 ml	

Recommended Intake:

Take 3 times a day, 20 ml each, alone or mixed with water or other juice. In case of inability to take 3 times a day, it can be taken 2 times 30 ml.

The combined action and nutrient balance of the plant have a more powerful joint effect than can be expected from a mechanical aggregation of the individual ingredients. This is due to the fact that they help each other - an effect known as synergy.

Aloe Vera juice is a combination of honey - a source of fast-releasing energy and song-savvy eughehydrate.

- In daily consumption, it has a favorable effect on the motor activity of the gastrointestinal tract and the secretion of the stomach and intestines.
- An aid in inflammatory processes of the skin and mucous membranes.
  It is also used as a dietary and liver-enhancing agent as it helps to provide carbohydrates for glycogen synthesis.
- Aloe Vera also has adaptogenic properties, ie. contributes to the reinforcement of the body's overall resistance to harmful influences such as infections and stress.

The juice from the heart of Aloe Vera - an invaluable gift from the gods, giving the body precious building blocks. It contains about 160 known ingredients useful for the body. Today, over 200 varieties of Aloe are known, but the most valuable of these are Aloe Barbadensis Miller. Its gel contains a cocktail of useful and active substances: mannan, polymanan, antraquinone, C-glycosides, anthrone and lectin. It contains 20 minerals, 18 amino acids and 12 vitamins.

Aloe Vera for:

- maintaining the normal blood cholesterol concentration
- maintaining normal blood pressure;
- maintaining normal blood pressure;
- normal function of the digestive tract;
- normal blood formation;
- protecting the body from stress.

CALCIUM 250 mg + VITAMIN C 500 Effervescent Tablets

Ideal way to kick off your day

At the first sign of a cold or flu

Vitamin C contributes to the normal function of the immune system as well as to the maintenance during and after intense exercise, to the protection of cells from oxidative stress, to the normal formation of collagen and the normal condition of cartilage. Vitamin C also contributes to the normal functioning of the nervous system and blood vessels, the maintenance of normal mental function, the reduction of the feeling of fatigue and tiredness, the regeneration of vitamin E in its reduced form. In addition, it increases the absorption of iron.

Calcium is needed to maintain the normal condition of teeth, bones and muscles, participates in the process of cell division and differentiation, contributes to the normal function of digestive enzymes and the normal transmission of nerve impulses, normal metabolism and energy production.

Ingredients:	**1 tabl.**	**% RDI***
Calcium /Calcium carbonate/	250 mg	31,25 %
Vitamin C /L- Ascorbic acid/	500 mg	625 %

* RDI= Recommended daily intake

- **Ingredients:** Acidity regulator: citric acid; calcium carbonate; acidity regulator: sodium carbonates; L-ascorbic acid (vitamin C); firming agent: sorbitols; sweetener: cyclamates; glucose; flavouring; firming agent: polyethylene glycol; sweetener: saccharins; colours: sunset yellow FCF/orange yellow S, riboflavins.

- **Purpose:** Vitamin C contributes to the normal function of the immune system, protection of cells from oxidative stress and reduction of tiredness and fatigue. Calcium contributes to normal muscle function and normal function of digestive enzymes. Calcium is needed for the maintenance of normal bones and teeth. Aslo helps to keep a healthy blood pressure and normal blood clotting.

- **Recommended Intake:** one tablet per day dissolved in 200 ml water

D-ABOVIT

Help to improve Vitamin D deficiency

D-ABOVIT

- ***Combination between Vitamin D, calcium intake, healthy diet and regular physical exercises helps to improve the condition of people with bone diseases.***
- ***Help to maintain bones and teeth in healthy condition.***
- ***Vitamin D is involved in regulating the levels of minerals such as phosphorous and calcium, it is used for conditions caused by low levels of phosphorous and low levels of calcium.***

Vitamin D3 Spray 400 I.U.

Vitamin D is a vital fat-soluble vitamin. The major natural source of the vitamin is synthesis of cholecalciferol in the skin from cholesterol through a chemical reaction that is dependes on sun exposure.
The vitamin D produced from the skin is rapidly absorbed in the blood and could be store in the fatty tissue for months.
Vitamin D was first isolated in early 1920s, nowdays is well known with beneficial functions of the vitamin D on the immune and the nervous systems. There are more then 600 receptors where the Vitamin D acts, including receptors in brain and heart. Vitamin D turns in powerful steroid hormone when it is activated. Instead it could be considered as a hormone, with activation of the vitamin D pro-hormone resulting in the active form, calcitriol, which then produces effects via a nuclear receptor in multiple different locations.
Hormone activity of Vitamin D is versatile. It is used to maintain the normal health condition of bones and teeth. Vitamin D is used for normal function of the immune system and the muscles. Vitamin D promotes calcium absorption in the gut and maintains adequate serum calcium and phosphate concentrations.
Vitamin D is highly recommended for pregnant women.

Ingredients: Vitamin D (Cholecalciferol), Stabilizer for the emulsion (solubilisate): Glucose sirup, Carrier: Purified water, Emulsifier: Polysorbate 80, Flavour enhancer: Anice oil, Preservative: Potassium sorbate.

Recommended dosage: one injection in the mouth daily.
One injection contains 10 µg (400 IU) Vitamin D3 (200 % of RDI).

FLORA

FLORA - formula combining probiotics and prebiotics for double force and body defense

Flora products have been developed specifically to support the proper functioning of the digestive system and relieve stomach ailments with children and adults.

Probiotics are bacteria that have a beneficial impact on overall organisms by directly colonizing the intestinal mucosa and begin to produce there vital enzymes, vitamins, amino acids and other cell bioproducts. Prebiotics are the food of good bacteria. These are fibers that help the development of the beneficial effects of probiotics and their survival in the intestinal tract us. Fructooligosaccharides (FOS) are low-calorie, carbohydrate which act beneficial to the immune system, bone health and balance of the important bacteria in the gastrointestinal system. The presence of FOS in products contributes to proper development and activity of lactic acid bacteria.

Flora 7 Bimbi - 6 single-use vials have a unique combination of probiotics, pre-Antibiotics and vitamin B complex. They maintain the balance of intestinal flora and inhibit the growth of bacteria, ensuring proper and effective digestion. They are suitable for use in the viral and gastrointestinal infections, and during and after treatment with antibiotics. May be adopted by infants and children up to 12 years old. They support the normal functioning of digestive enzymes in the child's body.

Flora 7 Bimbi -10 sachets help to suppress the growth of pathogenic bacteria, which are th of the main causes of gastrointestinal disorders. Especially suitable during, and after taking antibiotics. Help for proper and effective digestion, a natural coping with swelling of the abdomen of the child, gas and colic. Moreover Flora7 -10 sachets are very effective for constipation, upset or under stress due to change in scenery.

Flora 8 - Contains 8 billion live probiotic bacteria, from 2 specially selected strains in combination with 2 prebiotics. Extremely suitable for pain, swelling, gas, constipation, diarrhea. Has a beneficial effect on liver function. Especially suitable for patients with hepatic steatosis and / or people taking non-steroidal drugs.

Flora 10 also contains Inulin, Vitamin 81 and Vitamin 83 in order to guarantee their supplementation in case of dysbiosis when their production by the microflora is compromised. Furthermore the presence of Vitamin C contributes to the immunes system recovrey.

Food Supplement

Flora products have been developed specifically to support the proper functioning of the digestive system and relieve stomach ailments in children and adults.

Gluten and lactose FREE

6 x 1.2 g orosoluble sticks

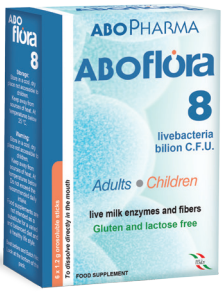

Lactobacillus rhamnosus improves liver function, particularly suitable for hepatic steatosis. Thanks to Lactobacillus rhamnosus, the beneficial bacteria are increased and the barrier function of the intestine is restored, leading to a gradual reduction of inflammation and steatosis of the liver. Moreover, the strain is extremely useful for diarrhea and gastrointestinal problems, both in children and in adults.
Bifidobacterium animalis is extremely useful in disorders of the digestive system, from constipation to diarrhea. Relevant to improving immunity. Improves glucose profile. Prevents gastrointestinal side effects associated with taking non-steroidal anti-inflammatory drugs. The combination of Bifidobacterium animalis with inulin has a very good result in patients treated with Helicobacter Pylori.

Ingredients	*Per daily dose (2 sticks)*
FOS (fructooligosaccharides)	650 mg
Inulin	440 mg
Bifidobacterium animalis	200 mg, 10 bn livebacteria
Lactobacillus rhamnosus	60 mg, 6 bn live bacteria

Adults • Children

HAYDE - Liquid organic GERMANIUM

Contribute the supply of tissues and cells with oxygen

One molecule of GE-132 has the ability to transfer 3 oxygen atoms, and thus contributes to the supply of tissues and cells with oxygen.

10 sticks for daily intake

Ganoderma lucidum / Reishi / is known as the mushroom of immortality China and Japan. According to various studies, it contains about 400 different active components including triterpenes, polysaccharides, nucleotides, sterols, fatty acids, proteins, minerals and organic germanium. The pharmacological effects of the Reishi mushroom are related to its properties: immunomodulatory, protects against the formation of atherosclerotic plaques, anti-inflammatory, analgesic, antitumor, radiotherapy protective, relaxing, antibacterial, antiviral, anti-viral / including HIV / AIDS, including HIV , antioxidant, anti-aging, hypoglycemic and ulcerative.

IMMUNODMULATION

Polysaccharides contained in Ganoderma lucidum / Reishi / are responsible for immune stimulating. They trigger the activation of a nonspecific immune response by stimulating NK, macrophages, dendritic cells and antigenic cells (APCs), which provoke the release of cytokines, which in turn activate a specific immune system (humoral or cellular).

ANTI-VIRUS AND ANTIBACTERIAL ACTIVITY

The antiviral and antibacterial effect is due to polysaccharides and triterpenes that inhibit the viral spread / replication of HSV, HBV, HIV and other viruses, interfering with their absorption, hepatocyte fusion, endocytosis, viral integration and release. Ge-132 has antioxidant and anti-proliferative action. Research in this area (done in Japan, Europe, China and the United States) has shown promising results in the treatment and treatment of a number of diseases, such as rheumatoid arthritis, food allergies, hypercholesterolemia, candidiasis, viral infections and some cancers.

HAYDE - Liquid organic GERMANIUM

Contribute the supply of tissues and cells with oxygen

IMPROVING ABSORPTION OF OXYGEN

Effects on central and peripheral nervous system (ear noise, substitutability, dementia and Alzheimer's). As a carrier of oxygen molecules in tissues and cells, as an alternative to hemoglobin function. **HAYDE** improves the supply of oxygen in the body and can assist in conditions associated with a deficiency of oxygen, from a stroke to Raynaud's disease.

ADJUVANT FOR HYPERTENSION

HAYDE reduces cardiovascular risk.
Double-blind, controlled study of 54 patients with hypertension, first degree, non-responders in drug therapy, the dose of 200 mg Ganoderma lucidum shows an improvement in blood pressure in 85.5% of cases, improving the capillary and arterial blood pressure in a 14-day dosing. Reduces platelet aggregation and blood clots, which significantly reduces the risk of heart attack, stroke and other diseases related to the vital organs. Helps normalize high levels of cholesterol, blood sugar and blood pressure. Plays an important role in prevention of atherosclerosis. Organic Germanium increases the possibility of deformation of erythrocytes (softens red blood cells) and helps the blood to move more easily.

CHRONIC FATIGUE

The more oxygen there is in cells, the faster the conversion of energy from food into vital energy. Energizing effect of germanium is due to the increase in the oxygen efficiency. Ge-132 has Energizing effect even at extremely low doses.

Ingredients	Daily Intake – 1 stick
Germanium sesquioxide (Ge 132 Sesquioxide), Extraxt mushroom Reishi (Ganoderma lucidum, P. Karst)	100 mg
Reishi mushroom (Ganoderma lucidum, P. Karst), dry ext. from the sporadic part, caption up to 10% polysaccharides	50 mg

DIRECTIONS	Recommended Intake
Immune deficiency, viral infections, inflammatory, diseases	2 sticks daily before meals
With tinnitus, dizziness, dementia, Alzheimer's	1 sticks daily before meals
In atherosclerosis and increased cardiovascular risk	1 sticks daily before meals
Chronic fatigue and tiredness	1 sticks daily before meals

IMUNOCOL Perfect - liquid colostrum for babies and adults

Liquid colostrum concentrate - suitable for baby, children and adults

Immunocol Perfect delivering on the baby all the necessary ingredients that are contained in the karma as an aid to the buildup of immunity. It is a product obtained through a deep-frozen cold treatment, as compared to that of dry processing on a colander, is approximately 30% close to all indications to the true caster from the cow. It is well known that, while the co-slaughterhouse contains a number of extremely valuable substances, which are destroyed or reduced at high temperatures. A patented over-patent method of the process of cold biotechnological processing. With his help, the ingredients can be kept at 100%. On the diagrams you can see the advantages of the deep-bevelled processing before dry processing.

NOT SUITABLE FOR PEOPLE WITH ALLERGIES TO MILK PROTEIN

Ingredients: 100% BIO colostrum (cow colostrum - min.35% IgG), skimmed and sterile filtered. Contained lactose. Content on a 5 ml - 360 mg deposit.

Recommended intake: For children 0-3 years old 1 teaspoon (5 ml), from 3-12 years 2 teaspoons (10 ml), over 12 years and grow up, take 1 tablespoon in the morning or evening (12.5 ml) in pure form or mixed with cold fruit juice. Do not drink with hot drinks or alcohol.

During an intensive program: For children from 0-3 years old - the first 2 days - 3 times per 5 ml, followed by 3 days - 2 times per 5 ml and followed by 30 days per 5ml; For children from 3-12 years old - the first 5 days - 3 times per 5 ml, followed by 30 days 10 ml; For children over 12 years take the first 2 days 2 times 1 tablespoon (12.5 ml), the next 30 days, take 1 tablespoon in the morning or evening in pure form or mixed with cold fruit juice. Do not drink with hot drinks or alcohol.

WHEN IT IS BEST TO DRINK COLOSTRUM?

- In need of extraction on the immune system to the baby.
- When frequently ailing children.
- Especially useful for children of teenage age who are in puberty because it helps their normal growth.
- To recover from illness or surgery.
- It is to be adopted by persons with osteoporosis because it increases bone density.
- Problems with allergies.
- In case of viral infections of the upper respiratory tracts.

WHAT ARE THE BENEFITS OF TAKING COLOSTRUM?

- ✓Liquid form works very quickly due to immediate absorption by the body and is therefore preferred in acute viral infections.
- ✓Liquid colostrum can be given without problem to newborn infants. It is also suitable for the elderly.
- ✓Strengthens the immune system. Increases resistance to infections. Helps for better child growth.
- ✓It restores the internal organs after illness.
- ✓Accelerates wound healing. Helps to constrict the muscles and accumulate muscle mass. Increases bone density and strength.
- ✓Regenerates the nervous system.

Elderberry fruit PE	30 mg	60 mg	---	---
Inositol	20 mg	40 mg	---	---
Vitamin C /Beige Acerola Juice Concentrate/	19 mg	38 mg	24 %	48 %
Yeast Beta (1,3)(1,6)-D-Glucan	10 mg	20 mg		
Zinc /Zinkchloride/	2 mg	4 mg	21 %	42 %

***RDI** = Recomended daily intake
--- no established values

Recommended dosage:
- for children up to 12 y. - 5 ml
- for children over 12 y. - 10 ml

When needed, the intake for adults may be increased to 15 ml per day.

GLUTEN FREE
100 ml

It is not a substitute for a variety of daily food.
Shake slightly before use. Do not exceed the recommended daily intake.

Lactoferrin is a glycoprotein found in human breast milk and milk of cows. It helps to maintain a normal immune system, helps to increase phagocytic activity of leukocytes. It is a protein from the transferrin family, which helps to transport the iron to the cells. It helps to maintain the good state of the beneficial intestinal microflora.

Acerola is a tropical fruit that grows on low trees (2-3 meters). It is also called Barbados or Western Indian grapes. Acerola is home to South Mexico, Central and South America. Acerola is a fruit with a high concentration of natural vitamin C, making it easily absorbed by the human body. It is also rich in proteins, lipids, carbohydrates, calcium, phosphorus, iron, riboflavin, thiamin and fiber. Vitamin C contributes to the normal function of the immune system, the protection of cells from oxidative stress, the formation of collagen and the normal state of cartilage. Helps the functioning of the nervous system and blood vessels maintain normal mental function, reduce the feeling of fatigue and fatigue, regenerate vitamin E in its reduced form and increase iron uptake.
Inositol contributes to the maintenance of the normal concentration of cholesterol and triglycerides in the body. Helps to transfer nutrients through the cell membrane and helps break down fat.

Inositol - Enhances T-independent humoral immunity by regulating the tyrosine kinase enzyme. T-independent humoral immunity is critical for the generation of fast and powerful humoral immune response against the pathogens that cause respiratory infections.

Elderberry (Sambuscus nigra) is a tree species with black elderberry fruit. Its fruits have been used for hundreds of years in Europe, Africa and Asia because of the many biologically active substances contained in them - phytochemicals, polyphenols, minerals, fiber, vitamins - large amounts of vitamin C, vitamins from group C. The berries are rich and of anti-cyanide compounds.

BETA 1,3 / 1,6-D-glucans are a type of water-soluble fiber. They are fibers bound in the bile acids. Beta glucan contributes to maintaining a normal blood cholesterol concentration.
These compounds contribute to the neutralization of free radicals. They contain many pectin and cellulose that act diuretically.

Zinc is a mineral that plays an important role in metabolism. It contributes to the normal state of hair, skin, nails, eyesight, immune system, to protect cells from oxidative stress and for normal DNA synthesis.

ISOFLAVON

Natural substitute for hormone therapy

Soy beans - one of the richest sources of isoflavones

Does not contain ingredients from GMOs!

Composition of 1 capsule:	*PDP
Soy isoflavone	75 mg (50% PDP)
Soy lecithin	5 mg

* PDP - recommended daily dosage

30 capsules

Recommended dosage:
1 capsule daily
To obtain the desired effect must be taken regularly for 8 weeks. No side effects have been identified. Not recommended for pregnant and nursing mothers.

Isoflavones - biologically active compounds from the group of plant estrogens (phytoestrogens). Action - like natural female sex hormones - estrogen.

Soy isoflavone is an alternative substitute for hormone therapy with estrogen for women before and during menopause as it helps balance the female sex hormone.

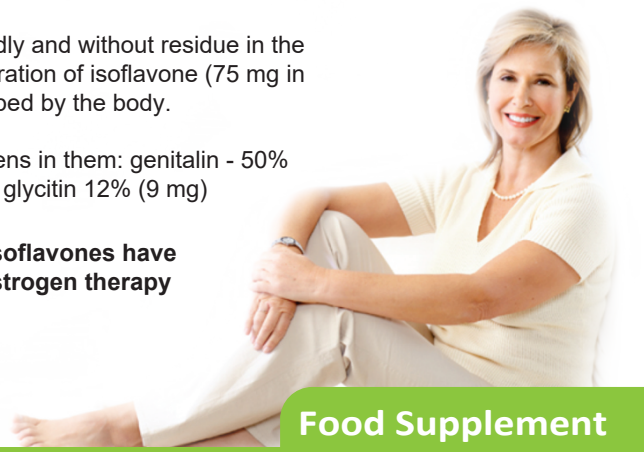

- Contributes to reducing climacteric symptoms such as headaches, hot flushes, insomnia, fatigue, nervousness, mood swings
- Contributes to the maintenance of normal bone
- Suitable for painful menstruation
- Suitable for dysmenorrhea

Soft gelatin capsules dissolve rapidly and without residue in the stomach, helping the high concentration of isoflavone (75 mg in each), easily and maximally absorbed by the body.

The ratio of the major phytoestrogens in them: genitalin - 50% (37.5 mg) diazein - 38% (28.5 mg) glycitin 12% (9 mg)

Experts are adamant that soy isoflavones have an advantage over surrogate estrogen therapy because:

1. It is more effective
2. No unwanted side effects

Food Supplement

KINDERFIT – 20 multivitamins and minerals for children with a taste of berries

multivitamins and minerals for children with bioflavonoids

Contribute to the normal function of the immune system during intense exercise and after.
Maintain a normal state of bones and teeth.
Increase the tone.

It is also recommended for children actively engaged in sports and / or mental exercise.

30 tablets
chewable with forest fruits flavor

Composition in 1 tablet: Vitamin A (Beta-carotene) - 400 µg RE (50%); Vitamin B1 (Thiamine Hydrochloride) - 0.7 mg (64%); Vitamin B2 (Riboflavin) - 0.8 mg (57%); Niacin (Nicotinamide) - 9 mg NE (56%); Pantothenic acid (Calcium-D-pantothenate) - 3 mg (50%); Vitamin B6 (Pyridoxine hydrochloride) - 1.22 mg (87%); Biotin (D-biotin) - 100 µg (200%); Folic acid (Calcium L-methyl folate) - 100 µg (50%); Vitamin B12 (cyanocobalamin) - 1 µg (40%); Vitamin C (L-ascorbic acid) - 39.89 mg (50%); Vitamin D (Cholecalciferol) - 2.5 µg (50%); Vitamin E (D-alpha tocopherol) - 1.5 mg (13%); Calcium - (Calcium citrate) - 14 mg (2%); Chromium (Chromium Picolinate) - 6 µg (15%);
Phosphorus (Magnesium Phosphate) - 14.06 mg (2%); Iron (Iron Fumarate) - 4.48 mg (32%); Magnesium (Magnesium Oxide) - 22.02 mg (6%); Manganese (Manganese sulphate) - 1 mg (50%); Zinc (Zinc Citrate) - 0.5 mg (5%); Selenium (Sodium selenium) - 12.02 µg (22%)

Recommended dosage: **1 tablet per day for children between 4-10 years;**
1-2 tablets per day for children over 10 years old.

ABOKOLIKEN - drops for better lactose degradation

For sweet dreams, babies 0+

Infant drops for better digestion of lactose

Preparing of infant formula: 5 drops/0.22 ml/ ABOKOLIKEN is added to the milk or milk powder with each infant's feeding. Once you are convinced that the temperature of the food is proper, shake the bottle vigorously and start feeding. Duration of intake is up to 4 months of age or till signs of colic disappear. Do not store remnants, throw them away! Do not exceed the recommended daily intake! Do not use as a substitute for a varied diet. Do not give the drops directly to the infant. Do not add to hot or very cold milk.

Purpose: The main food for infants is milk, dairy products, breast milk, dry milk containing complex sugars called LACTOSE. It is composed of simple sugars, galactose and glucose. LACTASE is an enzyme naturally produced by the human body that is needed to break down complex milk sugars into simple sugars and thereby assists their absorption by the body. LACTASE improves digestion of lactose in infants who have troubles in breaking down. The physiological transient lactase deficiency in infants results in tension in the abdomen due to the remaining unabsorbed lactose ingested with food.

Ingredients:	Single dose 5 drops ≈0.22ml	Daily Intake for 6 meals ≈1.32 ml	Daily Intake for 7 meals≈1.54 ml
Lactase enzyme (Lactase)	126 mg/604 FCC	755 mg/3623 FCC	880.5 mg/4226 FCC
Chamomile (Chamomilla vulgaris)	0.02 mg	0.14 mg	0.16 mg
Dill (Anethi Graveolens)	0.02 mg	0.14 mg	0.16 mg

In a normal drip, one drop is removed in a single-repeatedly pressing the vial without holding it.

Other Ingredients: carriers: purified water glicerine

Store in a dry place at temperatures up to 25 ° C and keep away from children. Once opened, it should be stored in a refrigerator.

Shelf life after opening: Three weeks. Do not use after the expiration date.

THE TEMPORARY LACTASE INTOLERANCE is the cause for baby colic

Milk/ human breast milk

Large guantitiy LACTOSE

Small guantitiy LACTASE

Non degraded LACTOSE

secondary fermentation

gases/bloated stomach = BABY COLIC

Adding a lactase compensate the temporary lactase intolerance and relieve the baby colic.

Feeding the baby with lactose-free milk reduced gas.

ABOBELLE ZINC + BIOTIN

A unique formula for beauty and health

Unique product with fast visible effect to improve nail and skin condition within 7 to 10 days of taking it. It can be taken for a long time. There is no danger of overdosing!

ZINC

- It helps to re-regulate the activity of the sebaceous glands;
- Helps for protein synthesis;
- It contributes to the normal functioning of the thyroid gland and the production of insulin;
- The total amount of zinc in the body is 2-3 g. It is contained in the largest amount in the liver, kidneys, pancreatic 3 cells, prostate, hair and erythrocytes;
- It contributes to the normal function of the immune system;
- It helps to maintain the normal state of hair, skin and nails as well as the normal flow of fatty acid metabolism.

Composition 1 capsule contains:
Zinc - 11.67 mg / Zinc Gluconate /
Biotin / D-Biotin / - 100 Ng

BIOTIN

- Biotin promotes the synthesis of vitamin C;
- Our skin, hair and nails need the sulfur it contains, so it can be called the vitamin of beauty;
- Biotin contributes to metabolism by promoting metabolism and energy production;
- Helps break down and absorb proteins, fats and carbohydrates;
- It also assists the normal functioning of the nervous system and mental function.

Recommended intake:
One capsule daily before a meal with a lot of fluid.

VITAMIN C 1000 Effervescent Tablets

Ideal way to kick off your day

At the first sign of a cold or flu

Vitamin C Forte, 1000 mg
Effervescent tablets with taste of lemon, 20 pcs I pack.

Ingredients of 1/2 Table:
Vitamin C (L-Ascorbic Acid) - 0.500 mg

Recommended dosage:
half a tablet per day dissolved in a glass of water

Effervescent tablets allow for fast absorption of Vitamin C into the blood stream.
Dissolve quickly in water to make a refreshing lemon flavoured drink

FUNCTIONS OF VITAMIN C:

- **Vitamin C** contributes to normal collagen formation for the normal function of blood vessels, bones, cartilage, gums, teeth and skin
- **Vitamin C** contributes to normal energy yielding metabolism
- **Vitamin C** contributes to the normal function of the immune system
- **Vitamin C** contributes to the normal functioning of the nervous system
- **Vitamin C** contributes to the protection of cells from oxidative stress
- **Vitamin C** contributes to the reduction of tiredness and fatigue
- **Vitamin C** increases iron absorption
- **Vitamin C** support immune function
- **Vitamin C** help reduce the severity and duration of cold symptoms
- **Vitamin C** contributes to normal psychological function
- **Vitamin C** maintain skin health and provide healthy antioxidant activity

VENTROLAX

With senna, dogwood, aloe and raven for beneficial effect on the intestinal tract

Ventrolax is a specially designed new formula for beneficial effect on the intestinal tract with Alexandria senna, Dogwood, Aloe and Rhubarb. The cloves of Eugenia caryophyllata, helps digestion of food. The plant extracts are micronized, easy to absorb, deliver 100% of active ingredients.

Incridients:	For maximum PDP 4 granules
Senna*	980 mg
Dogwood*	480 mg
Aloe*	300 mg
Rhubarb*	80 mg
Leaf mallow*	40 mg
Aloysia citrodora*	40 mg
Cinnamon*	40 mg
Clove*	40 mg

- The plant extracts contained in Ventrolax are treated with innovative micronisation technology, which makes them better absorbed by the body, with 100% of their bioactive elements.
- Cinnamon which supports digestive processes.
- Senna (Cassia Angustofolia M.Vahl) restrain about 3% anthraquinone glycosides / sennosides / causing enhance peristalsis of the large intestine. Senna does not affect absorption in the intestine and their normal function.
- Herb Dogwood (Rhamus frangula L.) has a detoxifying, laxative and choleretic effect.
- The rhubarb root (Rheum palmatum L.) increases gastric secretion and tones the muscles of the digestive organs.
- The gel which is in the leaves of Aloe (Aloe Ferox Mill) has the ability to maintain the delicate balance of the digestive system.
- Mallow (Malva sylvestiris L.) helps to protect the mucous membrane of the stomach and duodenum from irritating effects of food and hydrochloric acid.

INGREDIENTS: Alexandria senna leaves (Cassia Angustifolia M. Vahl), cortex Dogwood (Rhamnus frangula L.), leaf of Aloe (Aloe Ferox Mill), root of Rhubarb (Rheum palmatum L.), leaf Mallow (Malva sylvestiris L.), Aloysia citrodora (Lippia Citriodora Lam. Kunth), barks of Cinnamon (Cinnamomum zeylanicum Blume), cloves Clove (Eugenia caryophyllata Thunb).

ULITUSS

For a natural cough control

ULITUSS is a Cough Balsam based on snail extract and Gumweed useful to favour the function of the upper respiratory tract, the oropharyngeal mucosa and the tone of voice for its emollient and soothing action; the presence of Vitamin C also contributes to the normal functionof the immune system.

Ingredients	*Per maximum recommended daily dose - 3 spoons (equal to 30 g)*
HS Complex® *of which **Vitamin C***	9 g 60 mg (75% RDI*)
Gumweed (Grindelia robusta Nutt., top) d.e.	24 mg

*** RDI -** recommended daily intake

Ingredients: Fructose, water, HS Complex® (standardized snail extract 10% protein enriched with Vitamin C), 30% flavour (raspberry flavor); Gumweed (Grindelia robusta Nutt., top) dry extract; acidifier: citric acid; preservative: potassium sorbate.

Recomended daily intake:
- children: in the morning and in the evening x 7,5ml before meals.
- adults: in the morning and in the evening x 15ml before meals.

Gumweed has a complex mechanism of action.

Saponins:
- **Excito-secretory and fluidifying activity on bronchial secretion**
- **Fluidifying activity on mucus thanks to their ability to lower the surface tension**

Resins: **Protective activity on the mucosa thanks to their adhesive properties**

Flavonoids and other phenolic compounds: **Anti-inflammatory activity**

ABOSELEN - guardian of the immune system

Statistics show that every 10 th woman suffers from a lack of selenium!

Active ingredients in 1 capsule:
Selenium /Sodium selenite/ - 50µg

Ingredients: Selenium /sodium selenite/; emulsifier: soy lecithin; fillers: soybean oil, coconut oil, palm oil; hardener: bee wax; colorant: iron oxide; additives: gelatine and glycerol.

Selenium protects cells from oxidative stress. It helps normal thyroid function and immune system. It contributes to normal spermatogenesis and maintaining normal and healthy hair and nails.

Warnings: Do not exceed the recommended daily intake. Food supplements are not intended as a substitute for a varied and balanced diet and a healthy life style!

30 capsules

CONTRIBUTES TO:

- Strengthening the immune system/ barrier against all kinds of bacterial and viral infections/
- Elimination and prevention of the toxic effects of heavy metals, especially mercury Preventing oxidative stress
- Helping the synthesis of thyroid hormones
- The mineral density of the bones and the increase in their strength
- Induction of DNA repair and synthesis in injured cells to help prevent their proliferation
- Normalize the condition of the cardiovascular system
- Delay aging of tissues
- Preventing cells from destruction and carcinogens - so it is recommended for smokers

SELENIUM DEFICIENCY:

- The most common cause of selenium deficiency in the body is its mild food intake. Getting selenium from food in most cases is not enough.
- In the pursuit of higher yields in agriculture, soils are treated extremely aggressively, as a result of which their content in practice remains very poor in nutrients and minerals. Therefore, the use of additional selenium as a supplement is recommended.

PROCOLLAGEN

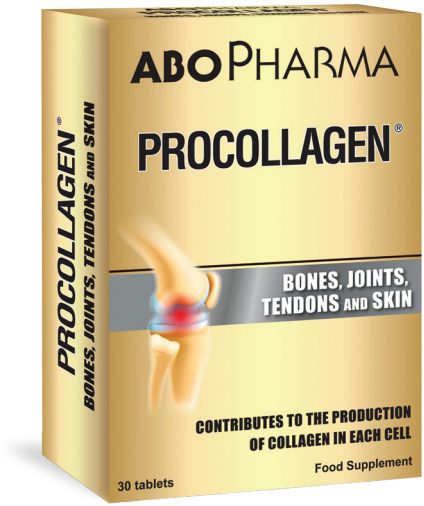

Contributes to the production of collagen in each cell

Procollagen contains NDF®, MSM and Vitamin C which contributes to normal collagen formation for the normal function of bones, teeth and normal function cartilage. Also contributes to the formation of collagen for the normal function of the skin.

Ingredients: MSM-methylsulfonylmethane, Vitamin C, NDF® [Natural Dermal Filler - Bam-doo (Bambusavulgaris Schrad. former JC Wendl., stem] dry extract enriched with Vitamin E), Bulking agent: microcrystalline cellulose, Anti-caking agents: magnesium stearate, silicon dioxide.

Recommended daily intake: 1 or 2 tablets per day (1 tablet after breakfast and / or after dinner)

Ingredients	Per maximum recommended daily dose
MSM (Methyl sulfonyl methane)	500 mg
Vitamin C	250 mg (250% NRV)
NDF® Natural Dermo Filler	180 mg
Vitamin E	30 mg (250% NRV)

MSM o METMYL SULFONYL METHANE is a biologically active form of sulphur, that is organic sulphur in its natural form. It restores the formation of crosslinks in collagen, preserving their elasticity. It is necessary for the synthesis of many enzymes, hormones, amino acids, antibodies and antioxidant molecules. It is called "the beauty mineral" as it makes the skin clear and young looking and the hair shiny and soft.

VITAMIN C is essential cofactor for the synthesis of collagen, stabilizes the double helix of the molecule.

NDF® Natural Dermo Filler
contains Silica, structural element of the connective tissue, essential for the formation of macromolecules such as elastin and collagen. It contains Vitamin E with an anti-free radicals effect.

Supports the locomotor system and helps to maintain the regeneration of articular cartilage, tendons and bones;
Plays a key role in the formation of collagen and elastin;
Contains Vitamin E, which helps protect cells against the harmful effects of free radicals;
MSM has a strong anti-inflammatory and analgesic effect.

MAGNESIUM

ABO - MAGNESIUM (250 mg) + vitamin B complex

FOR MUSCLES AND NERVES

30 tablets

Magnesium is an important mineral, which is essential for many metabolic processes and which can not be produced by the body itself. Strong mental and physical burden of occupation, stress or sports often lead to an increased need for magnesium, which can not always be met through diet. To support the body optimally in times of increased stress combine in **ABO MAGNESIUM with vitamin B complex** tablets essentialy contribute for nerve function, to reduce fatigue and energy production.
Magnesium is indispensable as an "anti-stress mineral" for energy and for muscle relaxation. The power of the heart muscle is supported by magnesium.
The B vitamins B1, B2, B6 and B12 supplement the properties of magnesium, as they are important for energy production in the body and for the nervous system.

Ingredients of 1 tablets:

Magnesium (Magnesium carbonate) - 250 mg (67% RDA),
Vitamin B1 (Thiamine) - 0.7 mg (64%), RDA
Vitamin B2 (Riboflavin) - 0.8 mg (57%), RDA
Vitamin B6 (pyridoxine) -1 mg (71%), RDA
Vitamin B12 (Cyanocobalamin) - 0.5 µg (20% RDA)

Recommended dosage: 1 tablet a day.

MAGENSIUM 1000 DEPO tablets

For normal function of the heart muscle, nerves and muscles

This product does not contain ingredients from genetically modified organisms (GMOs)!

ABOPHARMA® MAGNESIUM 1000 is specially developed formula of the two forms of magnesium and vitamin B6, as a depot tablet has two phases of directions:

Magnesium citrate, which is released immediately after its adoption. Organic form of magnesium with high bioavailability. This form of magnesium is much more easily dissolved and absorbed by the body, activating energy processes.
Magnesium oxide, which is with an extended release. Mined from the Dead Sea, known for its high concentration of mineral salts and high levels of elemental magnesium. It is released slowly from the tablet through the so-called. "Controlled" release.
In this way, some of the magnesium in the tablet is absorbed immediately by the body to activate the energy processes in the body by participating in the production of adenosine triphosphate (ATP), which is the main energy source for cells. The rest is released gradually in small doses, providing all day required level elemental magnesium for over 500 reactions in the human body.

Magnesium contributes:

- to a reduction of tiredness and fatigue
- to normal energy-yielding metabolism
- to normal electrolyte balance
- to normal functioning of the nervous system
- to normal muscle function and protein synthesis
- to normal protein synthesis
- to normal psychological function
- to the maintenance of normal bones and teeth
- to the process of cell division

Vitamin B6 contributes:

- to normal cysteine synthesis
- to normal energy-yielding metabolism
- to normal functioning of the nervous system
- to normal psychological function
- to normal protein, glycogen and homocysteine metabolism
- to the normal function of the immune system
- to normal function red blood cell formation
- to the regulation of hormonal activity

Recommended intake:

1/2 daily with planty of liquid. Do not chew.

Ingredients	1/2 tablet daily	*RDI
Magnesium /Magnesium Oxide/	242.25 mg	64,5 %
Magnesium /Magnesium citrate/	7.75 mg	2 %
Vitamin B6 /Pyridoxine/	2.5 mg	178%

RDI - recommended daily intake

Filler: Microcrystalline cellulose; stabilizer: stearic acid; anti-caking agents: colloidal silica, magnesium stearate.

Designation Magnesium is an extremely important mineral for many functions in the body

1 tablet equals 20.57 mmols Mg

MAGNEHEART Active - food supplement of mineral salts

Even more effective on symptoms of magnesium and potassium deficiency

✓Mental and physical fatigue ✓Muscle weakness ✓Cramps

MAGNEHART Active is a nutritional mineral supplement with magnesium and potassium that contributes to reducing physical and mental fatigue, normal muscle function and normal protein synthesis. Contributes to electrolyte balance and normal energy-yielding metabolism.
Magnesium has a role in the process of cell division, normal psychological function and normal state of bones and teeth. The presence of potassium contributes to the normal functioning of the nervous and muscular systems as well as to maintaining normal blood pressure.
Carthamus tinctorius flower has a beneficial effect on the cardiovascular system.

MAGNEHEART Active is a magnesium supplement that contributes to the reduction tiredness and fatigue, electrolyte balance, normal energy metabolism and, together with Potassium, contributes to the normal functioning of the nervous system and muscle function.

What causes lack of Magnesium and Potassium in the body?

Excessive loss of body fluids
Intense physical activity
Poor dietary intake
Poor absorption due to a high fiber diet
Increased needs

With Maltodestrine: gradually metabolized from the body to provide short and medium term energy

With L-aspartic acid: it supports the transport of Mg and K, contributes to muscle anabolism, development of strength and energy and favors energy production.

Ingredients	*Maximum recommended daily intake - 1sache*
Potassium	330 mg (16% RDI*)
L-aspartic acid	330 mg
Magnesium	225 mg (60% RDI*)
Carthamus tinctorius L. flowers	4,2 mg

**** RDI - Recommended Daily Intake***

Ingredients: Maltodextrine, Potassium citrate, Potassium gluconate, Acidity regulator: Sodium acid carbonate; L-aspartic acid, Magnesium oxide, Magnesium citrate, acidifying agents: citric acid, tartaric acid; Aroma, antiagglomerating agent: silicon dioxide; Sweetening: sucralose, Cartamo (Carthamus tinctorius L. flowers) powder.
How to use: It is recommended to take 1 sachet 2 times a day, to dissolve in a glass of water. Do not exceed the recommended daily dose.

LINOPROST

Prostate functionality and healthy urinary tract

Linoprost is a food supplement with an extract of African pygeum (Pygeum africanum) and Saw palmetto (Serenoa Repens), nettle and tomato, which contributes to normal prostate function.

30 tablets

Ingredients:	in 1 tablet
Saw palmetto (Serenoa Repens) of which fatty acids	320 mg 144 mg
Nettle (Urtica dioica L.) of which beta-sitosterol	150 mg 1,2 mg
African Pygeum	100 mg
Tomato (Solanum Lycoper-sicum L.) of which lycopene	66,7 mg 6,6 mg

Ingredients:

Saw palmetto (Serenoa Repens) fruit dry extract titer. up to 45% fatty acids, nettle (Urtica dioica L.) root dry extract titer. up to 0.8% beta-sitosterol, African Pygeum (Pygeum africanum Hook. F.) bark dry extract, Tomato (Solanum Lycoper-sicum L.) fruit dry extract titre. up to 10% lycopene, anti-caking agents: magnesium salts of fatty acids, silicon dioxide; fillers: cellulose, dicalcium phosphate, croscarmellose sodium, hydroxypropyl methylcellulose.

Recommended daily intake: 1 tablet daily.

Continuous use of the product significantly improves BPH symptoms and prevents its complications.

Definition of BPH (Benign Prostatic Hyperplasia)

BPH is an evolutionary disease characterized by enlarged prostate (Fig. 1) involving symptoms to the lower urinary tract, which interfere with the quality of life of male subjects. This disease affects 40% of subjects aged 50 (a percentage that grows with ageing).

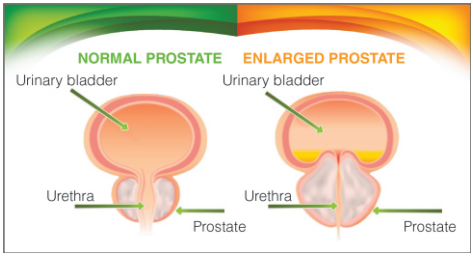

Figura 1.
Schematization of prostate gland in normal condition and with BPH.

Pay attention to symptoms:
- Difficulty and effort in starting urination
- Weak or interrupted urine flow
- Urine dripping after urination
- Feeling of incomplete emptying of the bladder
- Frequent need to urinate, especially during the night
- Urge to urinate
- Burning during urination

If not diagnosed and treated, they can lead to complications such as:
- Urine retention
- Bacterial infections (urethritis, cystitis, prostatitis)
- Stone formation
- Sexual disorders: erectile dysfunction, retrograde ejaculation

LINOPRIXOL

LINOPRIXOL for maintaining normal blood cholesterol levels and a normal lipid profile

Ingredients	Max Daily Intake 1 tablet in the evening
Yeast from red rice	334 mg
Equivalent to Monacolin K	10 mg
Biox save	100 mg
CoQ10	20 mg

LINOPRIXOL is a food supplement for maintaining normal blood cholesterol levels and a normal lipid profile.

30 tablets

GLUTEN FREE

LINOPRIXOL contains Monacolin K from yeast developed on red rice, which helps maintain normal blood cholesterol levels and a normal lipid profile. Coenzyme Q10 / CoQ10 / plays an important role in the energy production process and is a powerful antioxidant. Supports the proper functioning of the cardiovascular system and especially the myocardium. Strengthens the heart, reduces arrhythmia and blood clots.
Reduces high blood pressure. Biox save (a blend of the fruits of Olea europaea L. / oleuropein - with a proven blood pressure-lowering effect / and Vitis vinifera L / anti-diabetic activity, a powerful antioxidant/. The combination of clinically studied ingredients in LINOPRIXOL, beneficially affect the function of the cardiovascular system and help to protect cells from oxidative stress.

Ingredients:

Yeast from red rice (Monascus purpureus Went. mushroom fermentation on grains of Oryza sativa L.), standardized extract up to 3% Monacolin K, Biox save (a mixture of Olea europaea L. and Vitis vinifera L. fruits, maltodextrin and citric acid) powder; filler: microcrystalline cellulose; CoQ10, maltodextrin; anti-caking ingredients: silicon dioxide, magnesium salts of fatty acids.

Recommended daily intake: one tablet in the evening after dinner.

Warnings: Please consult your doctor if you are taking the product for a long time. Do not use during pregnancy, breast-feeding or if you are using medicines that lower lipid levels. Keep away from children under three years of age. A positive effect was observed with daily intake of 10 mg Monacolin K obtained from red rice yeast.

Do not exceed the recommended daily dose. Do not use as a substitute for a varied diet. It does not contain citrinin.
Storage: Store in a cool, dry place inaccessible to small children.
Keep at temperatures below 25C °.
Quantity: 30 tablets. Net quantity: 18g

LACRIMILLA is an innovative phyto product that protects, moisturizes and soothes even the most irritated eyes.

LACRIMILLA is a FAMILY product

lacrimilla®

10 *single dose sterile vials 0,5 ml each*

MEDICAL DEVISE

NOT CONTAINING CONSERVATIONS

Lacrimilla, come in convenient sterile single – dose vials, eye drops, made withrefreshing natural substances, lubricants and soothing properties are indicated for the irritation, burning,redness, tearing, itching, dryness and eye fatigue is often caused by prolonged stay in front of video screens computers or televisor

Composition: Euphrasia distilled water, Arnica distilled water, Bryonia distilled water, Ruta distilled water, Chamomile distilled water, sodium phosphate monobasic, sodium phosphate dibasic, sodium chloride, purified water.

Directions for use: instill 1 or 2 drops in each eye 2 or 3 times a day.

LACRIMILLA is an innovative phyto product that protects, moisturizes and soothes even the most irritated eyes.

It has been developed in the form of extremely convenient and easy to use 10 monodoses in sterile vials and is designed for both prophylaxis and treatment of reddened and tired eyes.

LACRIMILLA is a medical device and is a combination of distilled water of five herbs known from antiquity for its beneficial effects on the human eye.

LACRIMILLA is an innovative phyto product that protects, moisturizes and soothes even the most irritated eyes.

protective, lubricant and calming for irritated eyes

lacrimilla®

Eye drops single-use vials

Properties: LACRIMILLA, come in convenient sterile single – dose vials, is a specific adjuvant for the prevention and treatment of red and tired eyes. Indicated for ocular hypersensivity with irritation, burning, dry eye, awareness of foreign body in eye and lachrymation and eye strain caused by external agents such as: dust, wind and sun, smog,
pollen, dry heat, air-conditioning, extended, use of video and contact lenses.

Main components characteristics: the distilled waters, also called Hydrologic, are obtained after a steam distillation of fresh herbs, and represent the aqueous fraction witch separates from the essential oil. Chamomile distilled water is utilized because of its moisturizing and refreshing properties. Arnica and Bryonia distilled water have anti-redness and anti-itching actions. Euphrasia distilled water has antiseptic, refreshing and rehydrating activities.

Indications: LACRIMILLA is useful to soothe and prevent eye irritation, alleviate redness and burning awareness caused by long visual efforts or external agents. Particularly indicated for dry eyes (diminished quality or quantity of tear production) and for contact wearers.

Directions for use: instill 1 or 2 drops in each eye 2 or 3 times a day.
For a correct use of the product:
- separate the vial from the other vials
- open the vial by turning the cap
- apply the product by lightly pressing the single-dose vial

Separate | Open | Use

⚠ **PRECAUTIONS:** the product is for oftalmic use only; do not use if the cap-sealing is damaged; do not use if hypersensitive or allergic towards one or more components: if you experience eye disorders, stop the use of the product and consult a doctor; do not use after the expiry date; to prevent contaminations, do not touch the tip of the vial during the use; LACRIMILLA eye drops does not contain preservatives, so you have to throw away the single dose vial after the use, even if partially used; keep away from the reach of children.

Lichensed®

- BALSAMIC SYRUP - 100 ml and 150 ml
- NOSAL SPRAY
- SPRAY THROAT
- THROAT LOZENGES

GLUTEN FREE

Lichensed new, innovative formula that acts as bar rier creating a protective film that soothes and protects the first respiratory tract.

Icelandic lichen is collected and prepared in Scandinavia and Europe as a healing tool for stimulating appetite and relieving dry cough and inflammation in the oral cavity. The therapeutic effect of Icelandic lichen is copied to its sticky polysaccharides - up to 70% represented primarily by lichenene and isoleucine. The main action of Icelandic lichen is expectorant. It can be used for oral inflammation, pharyngitis accompanied by dry cough. Icelandic lichen contains another 1.5% of protholystearic acid - a resorbing and a succinic acid - effective against Gram - positive bacteria, including Staphylococcus, Streptococcus and Pneumococcus, various other bacteria and some pathogenic fungi.

Sundew is one of the most common insectivorous plants. It contains 1% droweron, identical to plumbacin, benzoic acid and others. It is used in the treatment of respiratory diseases - laryngitis, pharyngitis, pertussis, dry or productive cough, bronchial catarrh, asthma or tracheobronchitis. It is a natural painkiller product.

Cat's claw is a tree liana growing in tropical forests of Central and South America, especially in the Amazon jungle. It contains 17 different alkaloids from the group of oxydol and saponin glycosides, which have a strong anti-inflammatory and immunostimulatory effect. It also contains: Quinic acid - dicarboxylic acid, insoluble in water but soluble in alkaline medium. It has clear antiviral properties. Oleic acid - improves immune function and promotes the synthesis of antioxidants. Palmitoleic acid - Omega 7 fatty acid. Helps to strengthen mucosal health. Cat's claw helps with sinusitis, headaches, and asthmatics as it calms their attacks

.

Propolis is an excellent natural antibiotic and immune system stimulant. Basic composition of propolis: flavonoids, organic acids, aldehydes, amino acids, trace elements and mineral substances. Contains 500 times more bioflavonoids (vitamin P) than in oranges. It has various actions: bacteriostatic (prevents the development of many types of bacteria), bactericidal (kills more than 100 types of bacteria), anti-viral (stops the development of viruses), Fungicid (stops the development of fungi), anesthetizing greater than 2% neokinase solution), anti-inflammatory. Extremely effective for relieving symptoms of influenza, cold, respiratory infections, respiratory diseases.

BALSAMIC SYRUP

for dry and /or productive cough/

100 ml

INGREDIENTS:
- Cetraria islandica
- Uncaria tomentosa (cat's claw)
- Propolis
- Drosera rotundifolia, (sundew)
- Althaea officinalis

USAGE DIRECTIONS:

Children from 2 to 6 years: x 2.5 ml every 8 hours after a meal.
Children over 6 years: x 5 ml every 8 hours after a meal.
Adults: x 5 ml every 6-8 hours after a meal. Use the special dosing cap.
Shake well before use.

Enriched with White Rose and Plantago.

BALSAMIC SYRUP

for dry and /or productive cough/

150 ml

INGREDIENTS:
- Cetraria islandica
- Uncaria tomentosa (cat's claw)
- Propolis
- Drosera rotundifolia, (sundew)
- Althaea officinalis

USAGE DIRECTIONS:

Children from 2 to 6 years: x 2.5 ml every 8 hours after a meal.
Children over 6 years: x 5 ml every 8 hours after a meal.
Adults: x 5 ml every 6-8 hours after a meal. Use the special dosing cap.
Shake well before use.

THROAT LOZENGES

pain in the throat, burning, difficulty swallowing

- The innovative formulation of Lichensed® lozenges acts as a barrier and creates a protective layer that covers the mouth and protects it from contact with external irritating factors.
- Enriched with Aloe Vera extract, which helps to maintain hydration of the mucosa.

USAGE DIRECTIONS:

Children over 6 years old: 1 table. every 6-8 hours, up to 4 tables. daily.
Adults: 1 tablet every 2-3 hours, up to 8 tables. daily.

INGREDIENTS:
- Cetraria islandica
- Uncaria tomentosa (cat's claw)
- Propolis
- Drosera rotundifolia, (sundew)
- Aloe barbadensis

NOSSAL SPAY

INGREDIENTS:

- Cetraria islandica
- Uncaria tomentosa
- Propolis
- Drosera rotundifolia
- seawater, essential oils of eucalyptus, dwarf and tea tree

USAGE DIRECTIONS:

Children from 2 to 6 years: 1 injection into each nostril every 8 hours.
Children over 6 years: 1-2 sprays in each nostril every 6-8 hours.
Adults: 1-2 sprays in each nostril every 3-4 hours.

SPRAY THROAT

INGREDIENTS:

- Cetraria islandica
- Uncaria tomentosa
- Propolis
- Drosera rotundifolia
- Aloe barbadensis

USAGE DIRECTIONS:

Children from 2 to 6 years: 1 injection directly into the oral cavity every 8 hours.
Children over 6 years: 1-2 sprays directly into the oral cavity every 6-8 hours.
Adults: 1-2 sprays directly into the oral cavity every 3-4 hours.

Lichensed Phyto Products are a combination of high quality natural active ingredients specially developed in accordance with the philosophy of natural medicine. In their composition are included extracts of Icelandic lichen, Cat's claw, White rose, Sundew, Plantago and Propolis for maximum efficiency on the airways.

Cetraria islandica

Althaea Officinalis

SILVERTUSS

WHAT IS THE COLLOIDAL SILVER?

Colloidal silver consists of silver nanoparticles suspended in water. The term "colloidal" means that this element originates an opalescent mixture called "colloid" whose particles have a size between 10^{0} and 10^{-6} m, very small but still detectable and not able to solubilize completely to generate a perfectly clear solution. It is thanks to this characteristic that colloidal silver performs its therapeutic effect even if present in traces: the very small size enables it **to interact with bacteria, mycetes and even viruses completely inhibiting their proliferation.**

THERAPEUTIC USE OF COLLOIDAL SILVER

The powerful antibacterial and antiviral activity of the colloidal silver has different fields of use. Its inclusion in medical devices for the wellbeing of the respiratory tract is safe and effective even for children as shown by studies carried out on children aged 0 to 12 years with viral rhinitis from which they fully recovered in 90% of cases. (1) The colloidal silver is tasteless and odourless; therefore it doesn't alter the taste of the product enabling to obtain a pleasant formulation, suitable for everybody.

PROPOLIS: the many beneficial effects of propolis have been known and considered since centuries so much so that its use dates back to Ancient Greece. This precious substance is the result of the interaction between animal and plant kingdoms because, over the centuries, plants in the effort to protect their most delicate parts from external aggressions, have covered them with resins rich in polyphenols These resins were then collected and processed by bees by adding waxes, pollens and enzymes. Therefore propolis, thanks to the incredible mix of ingredients, combines multiple activities including **antibacterial, antiviral, antifungal, anti-inflammatory and immune-regulatory activities.** Therefore it is successfully added to preparations against seasonal diseases such as sore throat and cold, acquiring the title of real **natural antibiotic.**

SILVERTUSS

FOCUS ON COLLOIDAL SILVER

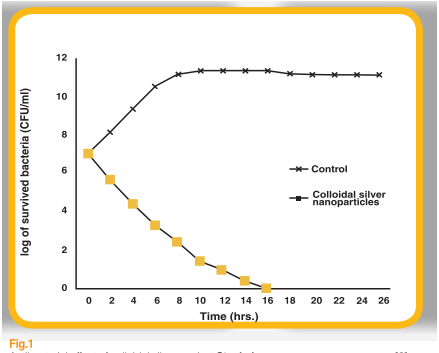

Fig.1
Antibacterial effect of colloidal silver against **Staphylococcus aureus** .[2]

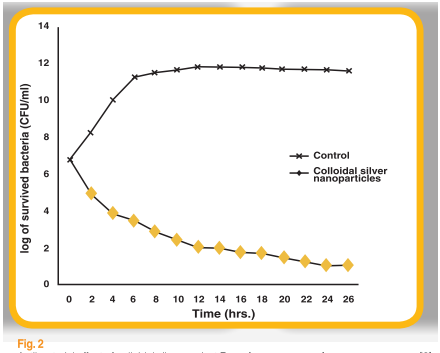

Fig. 2
Antibacterial effect of colloidal silver against **Pseudomonas aeruginosa** .[2]

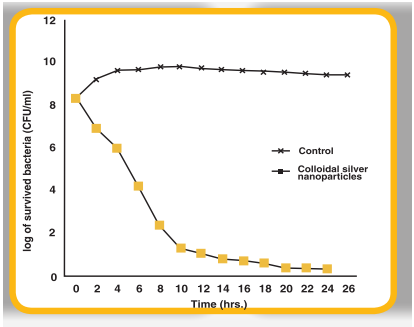

Fig. 3
Antibacterial effect of colloidal silver against **Escherichia coli**. [2]

The graphs show how colloidal silver in traces is already active against some of the most common bacteria, potentially pathogenic to man.

THE THREE FORMULATIONS ARE COMPLETED WITH:

Thymus vulgaris L.: effective natural fluidizer of the tracheobronchial secretions, especially in case of productive cough.
Grindelia robusta Nutt: expectorant, anti-inflammatory and antispasmodic of the bronchial smooth muscle.
Althaea officinalis L.: Very rich in mucilages that form a coating on the oropharyngeal mucosa, hydrating and protecting it from external irritating agents such as dust, smog and dry air.
Sisymbrium officinale Scop.: also called “singer’s plant”, it is essential in all cases of aphonia and dysphonia resulting from laryngitis, pharyngitis, tracheitis and throat inflammation.
Seawater: decongests the nose without the side effects produced by synthetic decongestants as it draws out water through osmosis, reducing mucosal swelling.
Eucalyptus, Lemon and Niaouli essential oils: for a pleasant refreshing and balsamic effect.

ABO PHARMA

Product catalog

UROCIST

Adjuvant in the prevention and treatment of cystitis

D-mannose – 150 mg.;
Bearberry – extract titrated at 20 % in arbutin – 125 mg.;
Cranberry – extract titrated at 40 % in proanthocyanidins – 40 mg; Beta-glucans – 25 mg

with **Cisti-complex®**

15 tablets

One tablet contains 40 mg proanthocyanidins
No contraindications in pregnancy
May be used in children over 6 years

For chronic infections, after specific treatment or during the antibiotic treatment: one recommeaded. In cases of strong pain or acute cystitis recommended to take two tablets per day until the symptoms fading, usually 3-4 days.

UROCIST provides a natural approach that can avoid the complication of resistance developed by Escherichia coli to the traditional treatment.

- Proanthocyanidins (PAC) from Cranberry and D-mannose prevent bacterial colonization in urinary tract. PAC and D-mannose binding to the bacterial fimbriae (fig.1).
- Bearberry increase urine output and helps to eliminate the bacteria.
- Beta-glucans – have immunostimulating properties. When the quantity of macrophages in the immune system is low it is possible to have bacterial infection in throat, oral cavity, nose, skin, lungs.

  Beta-glucans increase host immune defense by activating complement system, enhancing macrophages and natural killer cell function. In viral infections Beta-glucans increase productions and activity of T-cells which along with macrophages shows antiviral activity.
